### LETTER OF RECOMMENDATION

I am pleased to give my recommendation for **Ms Arunima Rejy**, whom I have known for the past Five years. I have taught her the subjects of environmental chemistry, environmental management and water treatment techniques in her B.Sc and M.Sc program, and she is one of the most promising students I have come across.

Ms Arunima Rejy is an intelligent and enthusiastic learner. She is very quick at grasping concepts which others fail to conceive. She demonstrated proficiency and excellence in both the conceptual and practical aspects of the courses. She has always been a smart worker and I am impressed with her quick perception and reproduction of concepts. Her application is praiseworthy. Her maturity, competence, and ability to work diligently indicate that she can perform well even in a highly competitive atmosphere.

I have also evaluated her assessment seminars as a subject evaluator in which she has excelled. She has good communication skills and enchanting leadership qualities which she had shown in attending technical meets and other extracurricular activities.

Ms Arunima Rejy's discipline, respect towards the faculty and behavior to fellow students are appreciable. She is also one of the best students, setting a benchmark for her fellow students. I feel confident that she will continue to succeed in her studies. Bearing her impressive background in mind, I strongly recommend her for admission into your esteemed university. I wish her all the success in his future endeavors.

Thanking you,

Please feel free to contact me if I can provide any further information through
