

Motivation letter

I wish to express my strong interest in pursuing a Master's degree in engineering management at Jönköping University. My name is Afnan Gafoor, and I am from Kerala, India. I completed my four-year undergraduate program, Bachelor of Technology in Civil Engineering, by 2018 with a commendable CGPA of 7.6. I hope this supports the fact that I give utmost importance to an impeccable academic record and try to maintain a positive graph throughout my educational period. I have always been passionate about the engineering field and integrating technology. I have tried my best to understand this subject and to an extent I believe I have successfully managed to grasp the basics of this field.

My academic journey has been marked by consistent dedication and a thirst for knowledge. From my early years of education, I have strived to excel academically. Regarding secondary education, I achieved a perfect score of 100%, showcasing my commitment to excellence followed by a commendable score of 83% in higher secondary school, further solidifying my passion for learning.

The decision to pursue a masters degree in Engineering management stems from my resolve to build a career related to engineering. I've always had a profound love for tools, machinery and construction. The said program is designed specifically to meet the employee demands put forth by labor market combined with skilled leadership development. I am truly attracted to the fact that students completing this course are highly on demand in the job market. The leadership driven training will enable me to take up managerial as well as other senior positions at reputed organisations and firms in the future. This is also my chance to gain knowledge side by side with fellow aspiring students from different parts of the world. I am attracted to the modules curated for this program particularly leading with people as well as boosting innovation. It's also a bonus that the course is completely English taught which otherwise would have been a great hurdle for international students like me.

Jönköping University stands out to me as a prestigious institution renowned for its commitment to academic excellence and innovation. Master's in Engineering management program aligns perfectly with my academic and career aspirations. I am particularly drawn to the program's emphasis on developing leadership qualities together with imparting quality knowledge and skills. By gaining expertise in this field, I aim to bridge the gap between traditional construction practices and modern sustainable methodologies.

As an international student, I am excited about the prospect of immersing myself in a diverse and multicultural environment. I believe that studying alongside students from different backgrounds and cultures will enrich my learning experience and broaden my global perspective. I am eager to collaborate with fellow students and engage in meaningful discussions that will deepen my understanding of sustainable building practices.

I am fully committed to actively participating in the academic and extracurricular activities offered by Jönköping University. I am confident that my strong work ethic, adaptability, and passion for sustainability will enable me to thrive in this program. Moreover, I am eager to contribute to the university community through my unique perspective and experiences.

In conclusion, I am thrilled at the prospect of joining the August class at Jönköping University to pursue a Master's degree in Engineering management. I am confident that this program will not only equip me with the necessary skills and knowledge but also empower me to make a positive impact in my home country. I am determined to stay updated on the latest advancements in the field and implement sustainable practices and take up in my future endeavours. After returning, I wish to work for esteemed institutions such as Infosys as an operations manager. I believe I can bring in innovative ideas and methods that would ensure a successful career. Thank you for considering my application, and I look forward to the opportunity of contributing to the academic and cultural fabric of Jönköping University.

Sincerely,

Afnan Gafoor
