### LETTER OF RECOMMENDATION

#### **To whom so ever be concerned**

I trust this letter finds you in good health. I am writing this letter of recommendation for Mahi Ahuja, a dedicated and accomplished student who completed her M. Tech from our department.

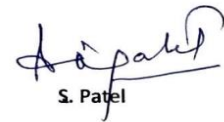

I had the pleasure of mentoring Mahi Ahuja during her M. Tech studies in Agricultural Processing and Food engineering at Indira Gandhi Krishi Vishwavidalaya. Throughout her time here, Mahi demonstrated exceptional intellectual abilities, a strong work ethic, and a deep commitment to academic and research pursuits.

One of her notable achievements was research in Enhancement of Ergocalciferol (Vitamin D<sub>2</sub>) in oyster mushroom (*Pleurotus ostreatus*) by UV-B radiation. This project not only showcased her technical proficiency but also reflected her ability to approach complex problems with creativity and critical thinking. Mahi consistently stood out in class discussions, displaying a keen understanding of processing and food engineering concepts and an enthusiasm for exploring new ideas.

Beyond academic achievements, Mahi actively contributed to the community through involvement in National Service Scheme (NSS). She collaborated effectively with peers, demonstrating strong interpersonal and communication skills. Her positive attitude and willingness to take on challenges make her an excellent candidate for pursuing masters studies.

I am confident that Mahi possesses the qualities required to excel in a Master program, and I wholeheartedly recommend her for admission to the master's program in Engineering management at Jonkoping University. Her passion for research, combined with a solid foundation in processing and food engineering, will undoubtedly contribute to the academic and research community at your esteemed institution.

If you require any further information or documentation, please do not hesitate to contact me. Thank you for considering my recommendation. I am confident that Mahi Ahuja will make significant contributions to the academic and research endeavours at the Jonkopnig University. Sincerely,

S. Patel
