

## **Statement of Purpose**

My name is Ajin Kunjumon John and I come from the beautiful state of Kerala, India, known for its lush scenery and rich cultural background. I completed my Higher Secondary education at Siddhartha Central School in 2017, which marked the beginning of my academic pursuits. From August 2017 to September 2020, I worked as a Sales Executive at Shahaniya Enterprises. Following that, I dedicated my time from August 2021 to April 2022 to assisting in my family's business, Tasty Hut Restaurant. In this role, I was responsible for overseeing day to day operations and managing financial tasks. After working as an Academic Consultant at Avodha Edutech in Kollam from May to July 2022, I started my role as a Sales Executive at Pereppadan Gold Park in Kottarakkara in June 2023. I am excited to pursue a Bachelor's degree in Economy and Management of Public Administration at the prestigious Technical University of Kosice in Slovakia to broaden my knowledge and gain expertise in public administration. This opportunity marks a major step towards achieving my academic and career aspirations, as I strive to make a positive impact in the public sector and create meaningful change in society.

I opted for a Bachelor's degree in Economy and Management because of my profound interest in understanding the intricate workings of economic systems and organizational management. In India, the scope for professionals with expertise in economy and management is extensive, given the country's diverse economic landscape and rapidly evolving business environment. For instance, with the ongoing digital transformation and emphasis on sustainable development, there is a growing demand for skilled individuals who can navigate these complexities and drive organizational growth. My passion lies in analyzing market trends, devising strategic plans, and implementing effective management practices to optimize business performance. By acquiring a Bachelor's degree in Economy and Management, I aim to not only capitalize on the abundant career opportunities in India but also contribute to the country's socio-economic development. Through my dedication and expertise, I aspire to play a significant role in shaping the future of businesses and making a positive impact on society.

I chose to pursue my studies at the Technical University of Kosice (TUKE) for many reasons. TUKE's global ranking of 1001 in the QS World University Rankings by TopUniversities highlights its recognition and prestige on an international scale. This ranking reflects the university's commitment to academic excellence and research prowess, which aligns with my aspirations for a high-quality education. Additionally, TUKE's

impressive overall score of 4.1 stars, as rated by students on Studyportals, further reinforces its reputation for providing exceptional study and living experiences. As a platform trusted by students worldwide, Studyportals offers valuable insights into the student experience, making TUKE an attractive choice for me. By opting for TUKE, I am confident that I will receive a top-tier education, surrounded by a supportive academic community, and equipped with the skills and knowledge necessary to excel in my chosen field.

I chose Slovakia as my destination for higher education due to its rich cultural heritage, excellent academic opportunities, and welcoming environment. Slovakia boasts a diverse range of universities offering programs taught in English, making it an attractive option for international students like myself. Additionally, Slovakia's central location in Europe provides easy access to other countries, allowing for cultural exploration and travel experiences. Moreover, the cost of living and tuition fees in Slovakia are relatively affordable compared to other European countries, ensuring that I can pursue my education without financial burden. The country's commitment to higher education and its growing reputation as an emerging study destination further solidified my decision to opt for Slovakia. Overall, I am excited about the prospect of immersing myself in Slovakian culture, gaining a top-notch education, and building lifelong connections in this beautiful and dynamic country.

Upon completing my Bachelor's degree in Economy and Management of Public Administration and returning to India, my future plan involves joining a reputed firm where I can apply my expertise and contribute effectively. I aim to secure a position in roles such as public policy analyst, government relations manager, or strategic planner, leveraging my comprehensive understanding of economic principles and organizational management. Through my work, I aspire to drive positive change and enhance efficiency within the public sector, thereby contributing to the socio-economic development of India. With a commitment to excellence and a passion for public service, I am determined to make a meaningful impact and further my career in the realm of public administration.

Warm regards,

**Ajin Kunjumon John**
