

STATEMENT OF PURPOSE

Name: ANITTA GEORGE

Date of Birth: 11th December 2000

Qualification: Bachelor of computer applications

English Proficiency: IELTS Overall score 6.0

Dear Admissions Committee,

I am thrilled to express my sincere interest in the Master's degree program in Business Informatics at the University of Siegen. I am Anitta George, a dedicated individual with a Bachelor's degree in Computer Application from Chinmaya College of Arts, Commerce, and Science, affiliated with Mahatma Gandhi University. Currently employed as a business analyst, I am driven by a relentless passion for leveraging technical knowledge and skills to address contemporary challenges in business informatics and computer science.

My academic journey commenced with exceptional performances in Class 10, where I secured a remarkable 98% score. During my higher secondary education, I discovered my passion for computer science and was able to achieve an excellent score of 88%. Throughout my schooling at S.T. Teresa's CGHSS, Ernakulam, I actively participated in IT-related activities, nurturing a deep-seated interest in information technology and data management. This early exposure laid the groundwork for my decision to pursue a Bachelor's degree in Computer Application, where I graduated with distinction, achieving an overall CGPA of 7.9.

During my undergraduate years, I honed my programming skills in languages such as C, C++, PHP, Java, and MySQL, while also delving into areas like database management, data mining, system analysis, and software engineering. My professional journey as a business analyst with Sherji Technologies, Webandcrafts, and Zartek Technologies has further enriched my understanding of real-world applications of technology in business contexts.

However, recognizing the evolving demands of the digital professional landscape, I am eager to expand my knowledge and expertise through advanced education. The Master's program in Business Informatics at the University of Siegen perfectly aligns with my aspirations. The program's focus on technical knowledge, skills, and methods across business informatics, computer science, business administration, and mathematics resonates deeply with my career

goals. I am particularly drawn to the curriculum's emphasis on preparing students to navigate the complexities of the digital world while fostering independent, scientific inquiry and critical analysis.

Germany's reputation as a global leader in technology and innovation further reinforces my decision to pursue my Master's degree in Business Informatics in this vibrant academic environment. The country's renowned educational system, coupled with its emphasis on research and development, presents unparalleled opportunities for intellectual growth and professional advancement. Additionally, the University of Siegen's commitment to cutting-edge research and its culturally diverse community make it an ideal destination for international students like myself seeking a transformative academic experience.

Attending the University of Siegen is more than just an academic pursuit; it's a transformative experience that marks a significant personal and professional achievement. The rigorous curriculum, world-class faculty, and immersive learning environment will empower me to excel in my chosen field and make meaningful contributions to the global business landscape. Upon completing my studies, I aspire to apply my expertise as a business analyst or IT specialist, contributing to the advancement of businesses in my home country.

In conclusion, I am deeply grateful for the opportunity to apply to the Master's program in Business Informatics at the University of Siegen. I am eager to embark on this enriching journey of academic and personal growth, and I am committed to making the most of this invaluable opportunity. Thank you for considering my application.

Sincerely,

Anitta George
