**LETTER OF RECOMMENDATION**

**TO WHOM IT MAY CONCERN**

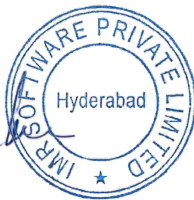

I'm writing on behalf of **Prabhanjan Reddy**, our junior business analyst we've had the pleasure of working with for a period of over two years. We began working with Prabhanjan as a **Business Analyst** back in 2020 in hopes of improving our daily functions and business strategies. He has proven himself to be a valuable asset and partner and has made numerous contributions to our organization.

He has a profound knowledge of software and technology corporations and has made several changes to our infrastructure that have significantly improved our productivity, efficiency and quality of software products. One of the most beneficial contributions Prabhanjan has made to IMR Software Pvt Ltd. was his restructuring of our implementation and installation procedures. as a part of his ongoing duties, he is responsible for performing constant assessments of our business models to ensure effective integration with our information systems. He conducted a study and submitted a report recommending some simple logistical changes that, upon implementation, resulted in quality improvement of some of our product lines. Prabhanjan has been a wonderful addition to our team and has helped us make long-lasting improvements to our organization with his industry knowledge, dedication and expertise in software and technology businesses.

I believe Prabhanjan would be a great asset to your program and I highly recommend him for a Master's program at your prestigious university. I wish him the best in all his future endeavors, and I hope he brings laurels to your university too. Please feel free to contact me for any further queries.

I wish him all the very best in career.

Regards,

**Chandra Shekar Goud Kotta**
