

STATEMENT OF PURPOSE

I am Jahanvi , a highly curious and competent student who believes in innovation and technology. Growing up, I have been an avid technology enthusiast and spent most of my free afternoons exploring the immense possibilities of my home computer. Moreover, I start my professional journey via securing 10th and 12th from CBSE(Central Board of Secondary Education) in the year 2020-2021 and 2022-2023, respectively. I am eager to immerse myself in an internationally acclaimed program that will provide me with the skills and knowledge necessary to excel in this rapidly evolving field and now wish to pursue a Bachelor' s degree in Computer Science from Gisma University of Applied Sciences. I believe that I can implement software systems that meet specified design and performance requirements.

The reason being it always fascinates me for programming and the associated hardware, I realized that computer science will enhance problem solving and analytical skills. Additionally, it will give the opportunity to work with cutting edge tools and technology, analyze large datasets ,contribute to the development of transformative technologies.

My academic journey has laid a strong foundation for my pursuit of a degree in computer science. During my intermediate, I maintained a strong academic performance, particularly excelling in subjects that are foundational to

computer science, such as Physics and Mathematics. I grasped the concepts thoroughly and I was keen in programming language. Furthermore, I am particularly interested in the application of these technologies in various industries such as GENAI, MACHINE LEARNING, CYBERSECURITY, WEB DEVELOPMENT.

The Computer Science program at Gisma University of Applied Sciences, Germany, is an ideal fit for my academic pursuits and long-term goals of developing and implementing innovative solutions to real-world problems. This University also stands out to me as an institution renowned for its researches and faculty members. Moreover, it aims at developing students' skills and putting knowledge into action. I am profoundly interested to gain advanced theoretical and practical knowledge that can ensure my personal and professional competency to compete with students across the globe and I am sure your institute will open new vistas of learning in computer science. I am excited to participate in hands-on projects, internships, and co-op programs that will allow me to apply my skills in real-world scenarios.

Beyond the classroom, I am eager to immerse myself in the vibrant campus life, joining student organisations and clubs dedicated to computer science and technology. Engaging in collaborative projects and participating in extra curriculum activities will not only enhance my technical skills but also foster teamwork, leadership, and effective communication.

The institute fosters the spirit of excellence and innovation in its students through its supportive atmosphere.

Upon completing my undergraduate degree, I plan to return to India and contribute to its technology ecosystem. I aim to work on projects that leverage cutting-edge technologies to address societal issues and make a positive impact on people's lives.

My fervent interest in advancing the field of computer science, coupled with my commitment to developing innovative solutions to real-world problems, solidifies my aspirations to join the Computer Science program at GISMA University of Applied Sciences. I aspire to work diligently on my projects and offer my sincerest efforts in learning and becoming a truly global professional. I hope you will grant me the privilege of pursuing my bachelor's degree in your prestigious university.

Yours Truly,
Jahanvi
