Recommendation Letter

I am very much pleased to recommend **Ms. VAISHNAVI S** as a prospective student for the master's programme in your university. As the Head of the Department of Applied Electronics and Instrumentation at Rajagiri School of Engineering & Technology (Autonomous), Kochi, Kerala, India, I have known her as a Bachelor of Technology (B.Tech) student in this college (2018-2022) and I had opportunities to observe her in close quarters as her instructor for the course Bachelor of Technology (B.Tech) in Applied Electronics and Instrumentation.

Throughout her B.Tech studies, she has consistently exhibited outstanding academic performance and a steadfast commitment to her studies. She engaged deeply with course content and demonstrated a keen understanding of complex concepts, often contributing valuable insights during discussions. Her achievements underscore her intellectual rigor, diligence, and genuine enthusiasm for learning.

She exhibited a notable sense of self-reliance, consistently demonstrating confidence in her abilities and decisions. Furthermore, she possesses excellent communication skills, both written and verbal, and has consistently demonstrated the ability to articulate her ideas clearly and persuasively.

Her curiosity, resilience, and adaptability will undoubtedly contribute positively to your academic community. Her intellectual curiosity and determination to succeed make her a promising candidate for your esteemed institution.

Dr. Hari C.V.

Assistant Professor and Head of Department

Department of Applied Electronics and Instrumentation Engineering

Rajagiri School of Engineering and Technology Kochi, Kerala, India
