To
The Visa Officer,

I am writing to express my keen interest in pursuing a Masters in IT for Business Data Analytics at the International Business School in Budapest, Hungary. With a strong foundation in Computer Science Engineering, I have developed a passion for data science and its transformative potential in today's world.

My undergraduate studies equipped me with a solid understanding of programming, algorithms, and software development. However, my growing fascination with data-driven insights and their application in business led me to explore the field of data science. I believe that this program aligns perfectly with my career aspirations and will provide me with the necessary skills to excel in this dynamic domain.

The International Business School's reputation for academic excellence and its student-centric approach have made it an ideal choice for my postgraduate studies. The dual degree program, in collaboration with the University of Buckingham, offers a unique opportunity to gain a comprehensive understanding of both theoretical concepts and practical applications. Moreover, the affordable tuition fees make this program a viable option for me.

Upon completion of this program, I am confident in my ability to contribute significantly to the growing data science industry in India. I aspire to work in a leading company, such as Google, Microsoft, Adobe, IBM, Meta, Cognizant, or others, as a data analyst, data scientist, or business analyst. The burgeoning demand for data professionals presents a wealth of opportunities for individuals with the right skill set.

I am particularly drawn to the IBS curriculum, which is designed to be practical and industry-oriented. This emphasis on hands-on learning will equip me with the skills needed to tackle real-world data challenges effectively. I believe that the combination of theoretical knowledge and practical experience will make me a valuable asset to any organization.

I am financially prepared for this commitment, with sufficient funds for my living expenses and an approved education loan to support my tuition fees.

This financial stability will enable me to focus entirely on my studies and fully engage with the academic community at IBS.

I am eager to embark on this exciting journey and contribute to the vibrant data science community at the International Business School. Thank you for considering my application.

Sincerely,
Gorisi Deepak Reddy
