TO WHOM IT MAY CONCERN

I am very pleased to recommend Navaneeth Visokan as a prospective student for the Master's course in your prestigious University. I have known him as a BTech student in this college (2016-2020) and I had opportunities to observe him in close quarters as his instructor for Principles of Management, Operation Management in Auto Industry and Vehicle maintenance for the course BTech in Automobile Engineering.

Navaneeth Visokan has done project in Electric Architecture of an Electric Car in which he has strived hard to learn Automotive Technologies. Navaneeth Visokan is quite ambitious and career driven. He works hard to achieve his goals and is committed to his work. He was very interactive in the classes and a student with self-reliance and good levels of self-confidence.

Navaneeth Visokan had a good understanding of the subject and his quest for knowledge constantly impressed me. He has repeatedly proved his conceptual ability and creative outlook in the class room discussions with notable problem-solving methods.

I wish him all the very best in his future endeavors.

Dr Manoj Kumar B
Associate Professor – Automobile Engineering
