

LETTER OF RECOMMENDATION

Dear Admissions Team,

I am writing this letter in support of Parthiv Chakma, who is applying for the Master's in your esteemed institution. As Parthiv Chakma and I have closely associated with each other, I can attest to his academic and personal qualities.

From the beginning of his undergraduate studies in Electrical and Computer Science engineering, he has a genuine interest and passion for programming and software development while I taught him the courses "Electromagnetic Theory," "Embedded System Design," "Real Time Operating Systems" respectively. His excellent academic record is evidence of this passion, being among the top students in his class. He has a remarkable ability to grasp complex programming concepts and apply them to real-world problems.

What makes Parthiv Chakma a standout candidate for your master's degree program is his ability to communicate and collaborate effectively. He is an excellent team player who is comfortable working in multicultural environments. He has always sought feedback on his work, and has demonstrated a willingness to incorporate it into his work. In our team-based projects, he has consistently delivered high-quality work, and has been a reliable contributor.

Parthiv Chakma is not just an accomplished computer enthusiast but he has also demonstrated a great commitment to giving back to the community. He has volunteered at several non-profits organizations, showing a deep sense of empathy, understanding, and zest for solving social problems using technology.

In conclusion I have no hesitation in recommending my student Nikhil Raj Veludandi for Master's program at your institution. Based on his scholastic and personal qualities, I am certain that he will be an invaluable asset to your program and go on to make significant contributions to the field of computer science.

Yours sincerely,

Dr.R.NARAYANAMOORTHY, Ph.D
