Ernakulam

Letter of Recommendation

I deem it as a great pleasure to recommend Ms. Jain Thomas for her higher studies in your prestigious University, currently completed under graduation in B. Voc Food Processing Technology at our college in the Academic year 2020 – 2023.

She is focused and smart working student. She is always curious about her subjects and in learning new things. She has shown a huge amount of energy, reliability, and commitment. She is well suited for the course and has great potential.

As a talented and hardworking student with plenty of skills I strongly recommend her for the further higher studies in your esteemed university. If you have any further queries with regards to her qualification and activities, please do not hesitate to contact me.
