

STATEMENT OF PURPOSE

I'm Sagar Manoj E, an Indian citizen who lives in Kerala. Currently seeking to advance my academic profile for professional progress in my area, I hold a Bachelor's degree in Business Administration.

I have worked hard to get respectable grades over my academic career since I am an eager learner. I have always been surrounded by and inspired by an academic environment to continue my education and further my profession because I was born and raised in Kerala, the Indian state with the highest literacy rate. I received an overall score of 83% in my tenth grade at Chinmaya Vidyalaya in 2016 and a 69% in my twelfth grade at GHSS Mavoor in 2018, all under the Indian certificate of Secondary Education, with English serving as the medium of instruction. I decided to pursue a degree in business administration from 2018 to 2021, obtaining 56% from JDT Institute of Commerce and Technology, which is associated with the prestigious Calicut University, Kerala. I was inspired by my teachers and received advise from the experienced folks in my near vicinity.

Though many colleges in the UK offer project management degrees, I was particularly drawn to University of Hull MSc Human Resource Management course because of its exceptional module, which exactly suits my ambitions. With its extensive selection of educational modules, state-of-the-art forensic and security facilities, and highly qualified faculty, university clearly aims to lead the industry. After reading over the course syllabus and programming materials, I'm particularly impressed with the diversity of modules provided by this Master's programme.

Upon successful completion of the program at the **University of Hull**, I'm optimistic that I will possess enhanced knowledge in the following aspects of **MSc Human Resource Management**

- To effectively manage teams and stakeholders, cultivate excellent communication, leadership, problem-solving, and negotiating skills.
- To develop the technical know-how, industry-specific methods, and tools for project management in order to effectively design, carry out, and oversee projects.
- To establish a network of professionals within the project management community in order to remain current on best practices, job openings, and industry trends.

- Maintain integrity and ethical standards in all project management tasks, making sure that there is accountability, equity, and openness

I found University of Hull after weighing a number of considerations and looking for the finest UK platform for the chosen subject. Its legacy, tradition of offering advanced education in a wide range of courses across many fields, and greater satisfaction among alumni students were other noteworthy reasons. The majority of studies indicated that University of Hull was among the top universities in the UK for the chosen course, and I consider it an honour to be a member of such an esteemed group.

After taking a lot of things into account, I looked for the best UK platform for the degree I wanted to take, and that's how I ended up choosing University of Hull. In addition, Times Higher Education (THE) has rated this public institution in Leicester as having worldwide excellence, which is what motivated them to select it. The school's legacy, history of offering advanced education in a wide range of courses across numerous disciplines, and more alumni student satisfaction were other noteworthy aspects. University of Hull was found to be among the top UK universities for the chosen subject in the majority of the research, and I consider it an honour to be a member of such an esteemed institution.

Thanks for your valuable time and patience in reading this.
