

STATEMENT OF PURPOSE

Dear Admissions Committee,

I am Sreehari Babu, a passionate individual who has completed a diploma in Tool Engineering and Digital Manufacturing from NTTF. My academic background and professional experience as a maintenance technician and junior engineer have fueled my interest in the field of production processes and materials.

Throughout my two years in the engineering industry, I have gained valuable insights into the intricacies of maintaining and improving production systems. This hands-on experience has deepened my understanding of the importance of efficient production processes and the role of materials in achieving optimal outcomes.

I am drawn to the Bachelor's program at STU University in Slovakia because of its renowned faculty and cutting-edge curriculum that aligns with my career aspirations. I am eager to delve deeper into subjects like manufacturing technologies, materials science, and process optimization to broaden my knowledge and skills in this field.

My goal is to leverage the knowledge and expertise gained from this program to make meaningful contributions to the industry and drive innovation in production processes. I am excited about the opportunity to immerse myself in a dynamic learning environment that will nurture my passion for production engineering.

I am confident that the Bachelor's program at STU University will provide me with the necessary tools and resources to excel in my academic pursuits and future career endeavors. I am committed to dedicating myself wholeheartedly to this program and am eager to embark on this transformative educational journey.

Thank you for considering my application. I look forward to the opportunity to contribute to the vibrant academic community at STU University.

Sincerely,

SREEHARI BABU
