**TO WHOMSOEVER IT MAY CONCERN**

**RECOMMENDATION LETTER**

I am pleased to be able to write this recommendation letter for Mr. Samyukth Prashanth Bharadwaj, a highly committed and skilled Pre-University student of our college during 2021-23 to support him in his application for Medical school at your excellent institution. Throughout the two years that I have known Mr. Samyukth, I have seen that he is an excellent pupil who learns very quickly and has a thirst for knowledge. He also is highly dedicated to furthering developments in medicine in the community, and I believe that his desire to better the state of community combined with his academic excellence will make him an excellent medical student in future.

I first came to know Mr. Samyukth in my Chemistry course, which all students who plan to join medical school and related courses are required to take. I was impressed by his research skills and diligence. He showed keen interest in all the practical classes and strived for accuracy. Through his work I have seen that he is extremely hardworking and intelligent individual who is sure to succeed in this future career.

In addition to his academic achievements, Mr. Samyukth is also involved in his community as well. Outside of his class he has volunteered as a shadow to doctors in hospitals and has also worked in helping patients during their hospital visit. I have every confidence that his competencies have equipped him to take on the challenges of medical school and recommend him without reservations.

Sincerely,

Mr. Renuka Prasanna T  
Head of the department Chemistry  
Deeksha C F L PU College  
Bengaluru
