To Whom It May Concern

This letter of recommendation is written in favor of one of our intelligent, self disciplined and hard working student, who completed his Secondary Education in this institution. **Mr. Shatrudhan** Gupta Teli wa a very sincere and a multi talented student of Management Group.

Mr. Shatrudhan Gupta Teli is one of the pride of this institution, was found to be self committed determined and laborious in his studies. He was always prepared for his lectures and successfully completed the assignments within specified time. I was very much impressed by his creative nature and scientific attitude. He was very much interested and also skilful at practical and theoretical workshops especially in problem solving skills. He was the one, who had a lot of inquisitiveness and questions within and never hesitated to express his queries.

As far as I have known him, He was friendly and extremely popular with his juniors he respected all his teachers and enjoyed the opportunity to learn from his colleagues, seniors and professors. He was extraordinary not only at his academics but he proved herself to be one among the bests in extracurricular activities. He was good at playing chess, badminton and also used to get prize in an essay competition. He was one among the finest essay writers in the school. He has strong feelings of social service and He used to actively participate in the fund raising programs for the victims of the environmental disasters.

I regard him as a sincere, diligent, committed and disciplined young fellow. He wants to continue his further studies. I am assured of his hard work and success in any course of his interest with flying colors. I wish him all success in his future studies and career.

Thank you for the opportunity of correspondence.

Umesh Regmi

Head of the department of Management Group
