

Visa denied

I am Alvin Bijo (X5770529) who enrolled in IBS.

I had undergone the online enrolment and as you are aware the first semester has already finished. However, I was not able to clear the visa process, and my visa was denied on the 31st of May.

As I have already paid the first-semester tuition fee and since the first semester has already passed, please confirm if I can defer my admission to the next intake. If I can defer my entire admission to the next intake, please confirm will I have to pay other charges or fees.

Please confirm if I want to claim the refund, what will be the process, and how much will be refunded.

Or please confirm the next possible option for me considering the situation.

Please provide a confirmation.
