LETTER OF RECOMMENDATION

It is my great pleasure to recommend **Mr. Katroth Mahesh** to pursue a master's program at your university. I have known him in my capacity as his professor in CVR College of Engineering, for over three years. I taught him the course of "**Logic and Switching Theory**". Through my observation, I would like to say that he is attentive, studious and meticulous. Throughout his course of study, Mr. Mahesh has shown immense interest in practical aided learning techniques.

He is an active student with commitment towards engineering concepts and learning. He kept the class alive with his good interactive skills; his ability to fathom the concepts and pose questions to get more clarity proves his interest and dedication towards education. Not surprising, his grades were consistently among the best- he topped in many subjects in the examinations. Also, he was punctual in completing his assignments.

Apart from scoring well in academics, Mahesh also has been the head of the student committee. He has continuously put forth the grievances of the pupils to the relevant authorities and has made a noteworthy difference in improving the facilities for day scholars. In short, he is a student of great caliber, who is not just intelligent but an affable and balanced individual.

I have a strong opinion that he has incorporated the right aptitude to do well in Graduate studies and hence I strongly recommend his candidature for an admission. I wish him success in all his future endeavors.

Dr. K. Arun Kumar
Professor of ECE
CVR College of Engineering
Mangalpally (V), Ibrahimpatan (M),
Ranga Reddy Dist. Telangana-501510
