LETTER OF RECOMMENDATION

It gives me immense pleasure to introduce **Mr. Katroth Mahesh** as a student of great promise and sincerity and I am pleased to recommend him for admission into the master's program at your prestigious university. As his mentor for two years, I have been closely associated with him during his undergraduate studies at our college.

He understands the fundamental ideas that underpin the topics. His systematic and intuitive effort has aided him gaining a broad perspective and mastery of essentials. He possesses unrivalled inquisitiveness and a burning desire to keep up with the latest advances in this sector. His laboratory work was well-organized and well-received. He was the class representative for the entire 4 years of BTech and has demonstrated good leadership skills. His confidence and courage are his forte; he never hesitated to ask questions or get his ideas clarified.

Apart from academics, he has actively taken part in various extracurricular events. During his third year of BTech he participated in "**Entrepreneur workshop at T-Hub**" in Hyderabad and volunteered in recruitment process. He was head of a team of 3 members in his major project "**Filter Design for Autoregressive Moving Average Graph Filters**" in the final semester of undergraduate.

I believe this course will help Mr. Mahesh in acquiring in-depth knowledge and a unique blend of engineering and management offered through the curriculum would prepare him well for the future opportunities in the field of her interest including entrepreneurship. Hence, I affirm my recommendation for him.

M. Ashok

Professor of ECE
CVR College of Engineering
Mangalpally (V), Ibrahimpatan (M),
Nanga Reddy Dist. Telangana-501510.
