## Letter of Recommendation

Hardworking, persistent and a positive approach towards his academics is how I would describe my student, **KHUNTI HETAL DULABHAI**. She is my student of bachelor's of Commerce. Her academic performance may seem good and her graph has slowly but steadily improved. But, what makes her special is that She does not give up on her shortcomings. Her relentlessly pursues her subjects with fervor till her fundamental concepts are clear. I have seen her put on long hours of dedicated study and concentrated work to better his given performance.

**HETALBEN** has finely balanced her academics with her active participation in many of our college events. Her ability to comprehend, relate and apply his theoretical learning for practical purposes is to be appreciated.

To conclude, **HETALBEN** will do complete justice to opportunities given and tasks assigned. I extend my support and favorably recommend her admission for higher education program at your premier institute.
