DEPARTMENT OF MECHANICAL ENGINEERING

Letter of Recommendation

It is my sincere pleasure to draft this letter of recommendation for Ms. Sirisha S. I have known Sirisha both personally and professionally since 2022. In my role as an Assistant Professor in the Department of Mechanical Engineering at Sir M. Visvesvaraya Institute of Technology, I first witnessed her academic prowess during the 5th semester of her studies when she enrolled in the 'dynamics Of Machine' course. Throughout this period, she consistently demonstrated a keen interest in understanding the subject through practical examples and innovative ideas. Additionally, I have instructed her in the subjects 'Computer Aided Modelling', 'Analysis Laboratory', 'Total Quality Management', and 'Design Laboratory'.

Her commitment to learning and thoughtful participation underscored her excellent interpersonal skills, backed up by good scientific and colloquial communication skills in English. For her academic mini project titled 'Power Generation Using Swing Motion' she approach to problem conceptualization and project design, showcasing a profound commitment to understanding and applying the acquired skills. Her enthusiasm for hands-on learning and interaction with peers demonstrates her ability to work proficiently in collaborative settings.

Sirisha is a highly motivated learner with interests that extend beyond the confines of the mechanical engineering. I was really imprinted by her interpersonal skills and her working methodology, which she uses to plan and execute her tasks even under tremendous pressure. I have always trusted her decisions which have yielded fruitful.

Sirisha has consistently conveyed her unwavering passion for pursuing a master's degree, and I have full confidence in her ability to excel in such a program. I wholeheartedly recommend Sirisha S for the graduate program at your university. Please do not hesitate to contact me if you have any further queries.

Sincerely,

Dr. Hanamantrayagouda M B

Assistant Professor

Department Of Mechanical Engineering, Sir M. Visvesvaraya Institute of Technology
Bengaluru, Karnataka, India 562 157
