DEPARTMENT OF MECHANICAL ENGINEERING

Letter of Recommendation

As an Associate Professor at the Mechanical Engineering department of Sir M. Visvesvaraya Institute of Technology, I have witnessed Ms. Sirisha's successful journey since her admission in 2022. I had interactions with her while I taught her subjects like 'Heat Transfer' and 'Turbo Machine', I strongly believe that she is a committed student with promising capabilities.

Sirisha is intelligent, enquiring and doesn't shy away intellectually challenging situations. She has a good ken of concepts and logical skills, which she applies efficiently in problem solving. She is optimistic and has a lucid way of conveying her point in group discussions. I have found her to be very sincere, diligent and responsible towards her course work. Having developed a sound understanding of the theoretical concepts, she would enjoy working at the Fluid Mechanics Laboratory and the Heat Transfer Laboratory in college during her free time.

She has participated in workshops organized by the department, including the Python Programming and its Industrial Application. She was one of the few students to have been awarded the Certificate of Academic Excellence for having secured the highest grades in all eight semesters among her peers.

She not only possesses the desire to learn, but also has the dedication to see her tasks through, which are qualities of a good research scholar. I am delighted to affirm this letter of recommendation in favor of Ms. Sirisha S for her admission into the master's program at your prestigious university. Please feel free to contact me regarding any additional information that you wish to seek regarding Sirisha S.

Sincerely,

Dr. Kiran Kumar M.
Associate Professor
