

Statement of purpose

I am Siga Sreekumar, residing in Kerala. I had completed my matriculation from St. Marys public school, karukadom in the year 2016 with an aggregate score of 8.6 cgpa. I had completed my higher secondary education from G.M.H.S.S Cheruvatoor, Kerala, in the year 2018 with 81.17%. I pursued my bachelors from Sree Sankara Vidyapeetom College in the year 2021 with a score of 6.36 cgpa. Following my studies, i worked as an accountant at Thazhathoot Multi Speciality Dental Clinic ,Kothamangalam. I also passed the IELTS examination with a band score of 6.5.

When I was younger, I had made many visits to hospitals and the one element that always stood out to me was the level of care that nurses provided. Since then, I had a dream of studying in Lithuania. It was an overwhelming favourite with my family members too, because of the unique advantages it holds as an educational destination. Lithuania is unparalleled in terms of education infrastructure and student support services. The country is also home to some of the top-ranked Colleges and Universities in the world. For international students, Lithuanian degrees which are accepted around the world, opens the doors to international opportunities. Above all, I chose Lithuania for the global exposure provided by its multicultural social environment.

In addition to being that one's responded the fastest to all manners of alarms, they were also the one's that patiently answered our questions and assuaged our fears about procedures from a young age, this made a profound impression on me and I know that I wanted to be able to follow in their footsteps.

My search for a perfect study program led me to a 4 year BCS Nursing program, Lithuanian University of Health Science (LSMU) – Kansas, Lithuania.

My life's ambition is to gain exposure to global healthcare by working internationally. I am sure that this course will help me to accomplish my dream.

In the future, I hope to continue working closely with both physicians as well as families to be able to provide the most comforting care possible. I will have my medical knowledge and skills. I am confident that the skills and knowledge I will acquire in my nursing school program will prepare me for the challenges and triumphs the come with being a nurse.

Sincerely

Siga Sreekumar
