2. Kindly answer the questions(in 10 Sentences Max)

a. What are your career expectations? (within 2 years? 5 years? 10 years)

Within the next two years, I aim to transition into a leadership role within a dynamic organisation, where I can apply the insights gained from my Executive MBA program to drive innovation and strategic growth initiatives. By actively engaging with cross-functional teams and leveraging emerging technologies, I intend to spearhead projects that deliver tangible value to the business and its stakeholders. In the following five years, I aspire to ascend to a C-suite position, where I can influence broader organisational strategies and foster a culture of innovation and excellence. This trajectory aligns with my long-term vision of establishing my own entrepreneurial venture within the next decade, where I can harness my expertise to solve complex challenges, create sustainable solutions, and contribute positively to economic development while nurturing a supportive ecosystem for budding entrepreneurs. Through this journey, my goal is not only personal success but also to make a meaningful impact by creating opportunities for others and driving positive change in the business landscape.

b. Why did you choose this program?

IAE Grenoble's Executive MBA program stands out to me for its reputation as a leading institution in international business education and innovation management. I am particularly impressed by the program's focus on

experiential learning and its diverse cohort of students and faculty members from around the globe. Additionally, I am keen to leverage the resources and expertise offered by IA Grenoble to expand my understanding of global business trends, develop cross-cultural competencies, and build a strong professional network.
