Letter of Recommendation

I am writing this reference letter in support of my student **Mr.Thota Naga Durga Bhavani Prasad**, who is applying for the master program at your esteemed University. I have known him as a student in my class. During this time, I taught him Thermo dynamics. As Assistant Professor, I have observed him during my lectures and he is a must mention for his performance from other professor too. I think some of my observations are worth mentioning while I pen down my letter recommending him.

He appears to be enthusiastic and clear in his concepts and goals. I can confidently vouch for his sincerity, integrity and soundness at his judgment. His analytical skills are very good and he is an excellent at communicating his ideas. His enthusiasm to learn new topics and gain insight into the subject emphasizes that he is ambitious in nature and incessant zeal to make innovative advances.

I view him as a student who has the right attitude to further his studies in a highly research oriented ambience. Given the opportunity, I believe that he will be benefited from the program that he has chosen at your university. I strongly recommend **Mr.Thota Naga Durga Bhavani Prasad** for an admission into your university with possible financial assistance and I wish him good future.
