TO WHOM IT MAY CONCERN

I know Abubakar Shehzad since September 2021, when he started his ICS in The Crescent College Shadman where I hold the position of Coordinator College Section.

I found Abubakar Shehzad as a reticent withdrawn and quiet young boy and then generally saw him come into his own, being confident, mature and articulate every day. He played a vital role in the management of an annual sports event held in campus in 2022. He performed his role perfectly. He also hosted the annual welcome party in 2021.

Till now he has shown excellent progression. Considering his potential, I believe that if he stays consistent in his effort he can be one of the top few in any further academic programme.

On the basis of vast potential and future promise he is recommended for admission.
