Tuition fees

Tuition fee information

Please do not pay until your payment details are "Available" on this page.

The University of Gothenburg recommends using debit or credit cards to pay tuition fees. This applies to admitted fee-paying students from all countries. Card payments are faster and help to ensure that your payment is efficiently matched to your tuition fees. This can assist your residence permit application process at the Swedish Migration Agency as their assessment cannot start until the tuition fee payment is registered on our account.

To pay the tuition fee by card, please visit PENGU. Accepted cards are Visa and MasterCard.

If you meet one of the criteria for being exempt to pay tuition fees, you may request a reassessment of your fee status. Please upload documents verifying your request to your personal account on universityadmissions.se and then inform tuitionfees@gu.se.

By paying the tuition fee to the University
