LETTER OF RECOMMENDATION

In my capacity as a Lecturer, I have know ALEX THOMAS from the academic year 2019. He studied the 3 year B.S History during the year 2019-22. During this time, I have had the pleasure of teaching him subjects such as History Political Science and Research project. As I have also been his Placement In-charge, I have seen ALEX THOMAS grow through the three years of college, and I am astounded at the strides he has made in his academic, technical and leadership capabilities.

From the beginning of the course, he has embodied the very concept of being a passionate students. He always brought novel approaches to all projects and assignment work handed out to him. In all the practical work, he was invariably the first person to emanate the correct method. I personally believe he is the right talent needed for higher education and research work.

Based on my observation of his abilities, I strongly believe he has the potential to be an outstanding student at your University. Although he has a chance to follow his Master's Degree at out Institute without any additional obstacles, he is determined to face higher and new challenges and stronger competitions in another Country. I have strong confidence that your faculty will provide him with new opportunities to progress his knowledge and skills. He will certainly be the kind of alumnus that you will be proud of!

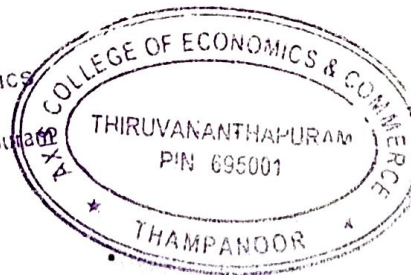

I strongly recommend him for admission in your esteemed University with maximum possible financial aid.

I wish Alex Thomas all success in his future endeavours.

With best regards.
