

STATEMENT OF PURPOSE

My name is Akash Kurian, and I'm an Indian citizen from Kerala. In terms of my academic history, I am Presently pursuing a 12th grade major in the Bio-Math's stream. I passed

My 10th grade with a 68 % in 2022. Since childhood I was engaged in Look my grandparents , seeing them happy with my help make Me even happier. This interest leads me to aim to become a nurse. I Believe nursing will educate me further and I see myself becoming Successful nursing professional in the future. Thus taking enough Research, I decided to pursue Nursing BSc.

When I completed my Grade XII and the question of higher education came up, Lithuania came up as a natural choice to my Father Since he always has high regard for Lithuania for Medical Profession. Since then, I had dreamt of studying in Lithuania. It was an overwhelming favorite with my family members too, because of the unique advantages it holds as an educational destination. Lithuania is unparalleled in terms of education infrastructure and student support services. The country is also home to some of the top ranked Colleges and Universities in the world. For international students, Lithuanian degrees which are accepted around the world, opens the doors to international opportunities. Above all, I chose Lithuania for Medical studies, qualification in nursing at Lithuanian University of Health Sciences in Lithuania. As a future professional, I will benefit tremendously from studying in this prestigious institution, and will be able to develop skills needed to my career growth.

Nursing is all about touching lives , and lives touching yours along the way. My life's ambition is to gain exposure to global healthcare by working internationally. I am sure that this course will help me make my dream and make Me happy

With the objective of pursuing higher studies in Lithuania, that very happy for me and I am confident that this will be a major turning point in my academic life and that it will give me the global exposure which I need. Right now, I am eagerly looking forward to commencing my studies.

Faithfully

Akash
