To: **Visa Officer, Embassy Of Sweden**

Subject: **Residence Permit Application For Pursuing Masters Degree**

Dear Sir/Madam,

I, Ajay Jude Lopez, have received an offer letter to pursue a Masters Degree in Engineering Management from Jönköping International Business School(Jönköping University). Therefore I seek a Residence Permit in order to pursue this Degree for my further professional and educational endeavours.

Personal And Academic Background, And Why I Chose This Degree

I have completed my bachelors degree in Mechanical Engineering as of 2020, and post that I worked in the Mechanical Engineering industry as Apprentice in the Quality Control Department of Leetha Industries, Post that, I'm currently working in Eben Telecom as an Accounts Manager for an outsourced process for Welcome Energy.

My academic background followed by professional work experiences has motivated me to pursue a Postgraduate Degree that best combines the principles of Engineering and Management, therefore I chose a Masters in Engineering Management.

Why I Chose Sweden

I had always planned to do my higher studies in a highly developed country with a progressive society. Sweden best matched this description. Further Sweden has an unwavering commitment to Sustainable Engineering and Sustainable Practices, an area I am very passionate about. I seek to achieve the best in class education from the state of the art educational infrastructure offered by Sweden. Studying in Sweden will expose me to a whole other culture and help me get better acquainted with a highly globalised nordic economy.

Why I Chose Jönköping International Business School(Jönköping University)

Jönköping International Business School is one of the world's best business schools offering world class faculty in a diverse and international environment, it is globally renowned for its Master in Management Degrees, further it is one of the few business schools that offers my preferred degree of Masters in Engineering Management.

What I Expect From My Studies and My Future Plans

Post my Masters expect to be more versed in the theories and practical applications of Engineering and Management, I expect to know more and learn better about Sustainable Engineering and Sustainable Practices. I wish to gain a strong intellectual and practical platform for my further studies and professional career.

I wish to pursue a career in the technical field in a role that requires management expertise, in Industries that are focused on or could benefit from sustainability. At a later stage I wish to do a PhD in a field relevant to my aspirations or start my own entrepreneurial venture.

Kindly accept my request and application for my Residence Permit so that I will be able to pursue my goals and dreams, as I seek to make my society a better place by fulfilling my potential and giving all that I can.

Yours faithfully
Ajay Jude Lopez
