To Whom It May Concern,

It is with much enthusiasm that I recommend Shibu, Basil for inclusion in your MBA Program.

I was Basil's instructor for two separate classes between 2021 and in 2023 in my capacity as a Distinguished Tutor at the International Business School, Budapest, Hungary. He took Information and Communication Technology (computer skills) and later Quantitative Methods for Managers (statistics and probability) from me and earned excellent grades in those subjects.

In class, Basil always demonstrated a proactive learning attitude. He had a strong desire for knowledge. He can quickly understand complex theoretical concepts and apply them to practical problem solving. He does not only have strong learning abilities, but also has quick thinking and is good at communication. He actively participates in class discussions, often offers unique insights, and conducts in-depth exchanges with teachers and classmates. He is always among the first to complete the tasks in class and is happy to help his fellow classmates.

He is cheerful and relates well to his groupmates. In my classes he demonstrated a good command of English and a high level of self-determination.

Based on Basil's knowledge, attendance and class participation, I'd rate his academic performance in my class as significantly above average. In conclusion, I believe that Shibu, Basil will become an outstanding student majoring in MBA in your school.
