LETTER OF RECOMMENDATION

I take pleasure in writing my impression of my student **Ms. SANDHYA LUKKA**. I only recommend students whom I feel are well suited for the program of their choice. I have been closely acquainted with her when I taught her "Electronic Devices and Circuits". During my interactions with her, she impressed me with her clarity of thought and her innate ability to grasp and master the basic concepts of a subject.

For over a year of observing and guidance, I have known no other student with talent equivalent to **Ms. SANDHYA LUKKA** and revealed that she is an intelligent, sincere, and hard-working student with a drive to achieve his targets. I feel confident that **Ms. SANDHYA LUKKA** is a keen observer and has the requisite aptitude to take up any hard task in her field of study. She always used to solve in a different way, making her unique from her fellow students. I am sure her sound knowledge of the subjects and her technical ability will prove to be an asset to her in her future endeavor.

She has shown tremendous energy and boundless enthusiasm to participate, plan and organize Intra and intercollegiate events. Her logical and technical abilities make everyone turn around and draw everyone's attention toward her. She maintains perfectness in all aspects and completes the work within the stipulated time. She has pleasing manners and is lively, attentive, and punctual. With her growing interest to study further, her ability to always give the best, and the qualities to adapt to a new environment, **Ms. SANDHYA LUKKA** fulfills the prerequisites for being a successful graduate student.

Ms. SANDHYA LUKKA would make an excellent candidate for early admission. I recommend her for graduate studies at your esteemed institution without hesitation. Should you have any questions, please feel free to contact me.

LETTER OF RECOMMENDATION

I have known Ms. SANDHYA LUKKA as a student of Electronics & Communications Engineering during the tenure 2015-2019. She graduated from our institution in May 2019. During this time, I handled theory sessions. I have observed her very closely in my lecture sessions & I taught her Digital Image Processing subject and I mention her performance with other professors too. I think some of my observations are worth mentioning while I pen down my letter recommending her to join in your ARI Company.

Her applications skills are well pronounced. She was always ahead of the rest during practical sessions. She had the capability to work efficiently in a group as well as alone. Often, I would find her providing assistance to her batch members. She is a well-mannered and polite individual

She played a pivotal role in organizing Annual culture festival as well the fresher well celebrations for consecutive years. Her command over English as well demonstrated through the various technical events she organized in our college. She amply demonstrated organizational skills too.

You have my assurance that Ms. SANDHYA LUKKA would best suited for the professional program and would pursue with interest & motivation. It would be a student decision to enroll her into your ARI Company
