## LETTER OF RECOMMENDATION

It gives me great pleasure to recommend Mr. Raj Donda to your esteemed institution for further study. He is one of the most promising students I have come across.

I have known him since 2017 and taught him Microbiology theory and practical. I found him to be a student who is endowed with the rare traits of a strong knowledge of the fundamentals and the ability to visualize a problem in a panoramic view and applies the concepts. He has learnt with ease and thereby emerges as a successful student among her classmates. He has consistently performed well.

During my interaction with him, I watched him grow into an outstanding individual who excels in both his academic and personal pursuits.

He has good imagination for planning to study and determination to carry it out. His excellent command over the subject will definitely suit for education and research. He is a student who will work very hard towards the fulfilment of any responsibility he undertakes. He bears excellent character.

I am fully confident that he will make an excellent addition to your Institution's community. Please feel free to contact me if you have any questions regarding his character or past academic work. I wish him all the success in his future endeavours.

Yours's Sincerely,

*Tanvi*
