

STATEMENT OF PURPOSE

PREFACE

I would like to introduce myself as Tejas Nandkumar Jadhav, an ardent aspirant of learning management skill and practical knowledge. The field of Business and management skill drives me so much that, this field is the real crux behind the exponential growth at management and financial level all around the world. They are the real advancers of the economy of world.

WORK EXPERIENCE

I have worked as an architect on different positions from junior to senior and as a consultant. At GMT Buildcon Pvt Ltd, I worked as a junior architect from Oct 2018 to June 2020 where I got exposure in multiple fields connected to architecture. Be it managing sites, communicating with vendors and clients, preparing and presenting all sorts of drawings, etc. Later, at Pradeep Jog Architects, I worked as a senior architect majorly on a project of maritime institute building at Palghar, India. Here, I developed managing skill as I had to look after various projects simultaneously. I got the opportunity to meet experienced professionals and discuss the project with them in brief.

At The Unitas Developers, I led a team of two draftspersons and a supervising engineer for a highrise tower project in Pune, India. Here, I got a wholesome exposure of project management along with research and development as I was asked to research for every material available in the international market and find the right fit for the project. This task widened the vision in me to explore the field of strategic international management and contribute to the companies at a global level.

WHY MSC IN STRATEGIC INTERNATIONAL MANAGEMENT?

With gladness and intense desire, I opted Strategic International Management, not only to be a part of, but to lead as a prominent role model in the field. In this emerging world, the most needed thing in any employment field is professional expertise. A person with deeper understanding of Business and management skill, is only considered as an efficient and competitive only when he acquires a professional expertise and efficient training. There are people who possess good thinking skill and better management capacity in their human nature. As I have read and studied, management skill is not only an acquired skill, but also a creative capability which some human beings have in their own nature. Acquiring proper and professional training along with an adequate assessment, researches and projects, reports and other learning programs, would mold a better resource in management skills.

WHY INTERNATIONAL BUSINESS SCHOOL BUDAPEST?

As I have an extensive understanding and immense desire, I would like to pursue my master's in MSc in Strategic International Management from the prestigious International Business School Budapest. I have chosen this College since I personally appreciate the excellent research opportunities that the College

provides to its students. IBS works in cooperation with The University of Buckingham, United Kingdom. The structure of the course by providing deeper and comprehensive understanding of the subject is an important point among them. Practical exposure that the College provides attracted me the most, since the whole world need practical skills than a book nerd. I was also much interested in the expert faculties of the College, sophisticated facilities, better infrastructure and good atmosphere for learning.

WHY HUNGARY FOR MASTER'S?

I have carefully chosen International Business School Budapest and Hungary for my master's, since it is a center of excellence and knowledge expertise, and the College, being a well-known, leading institution in the field. It is the rigorous academic structure with relevance to international context that attracts the worldwide students to Hungary. Moreover, the friendly and cozy atmosphere that Hungary provides, is an important element in this regard.

CONCLUSION

There is vast scope for professionally trained persons in International Management in India and, abroad. After completing rigorous training from the College, I am certain that I will have good business opportunities. I have some good business ideas nurtured in my thoughts for a longtime. I am sure that I can plan good methods to implement my business ideas, with the expertise I acquire from the College. Further, as a professional completed master's course from Hungary and especially from International Business School Budapest, I will have more consideration in management and business field. I can assure that, my study at IBS will be highly beneficial both to myself and the College.

Thanking you for your time to read my Statement of Purpose and to give me an opportunity and to express myself as a prospective student. Kindly Regards, Tejas Jadhav.
