LETTER OF RECOMMENDATION

I take immense pleasure to recommend Mr. BOLLINA NAGA VENKATA SATISH. Whose perseverance, sincerity and thirst for knowledge has made me to recommend him to your esteemed university.

As the head of the institution I had an opportunity to *interact* with him and guide him during his diploma (3 years) standards. His methodical and systematic approach has impressed me a lot. He has an analytical bent of mind. He is a very receptive person with great strength of character. It is his communication skills and sympathetic attitude that emerged him as one of the forerunners of the class. The fundamental knowledge he acquired were displayed in his Practical courses and other co-curricular activities like representing our college in various forms and contests.

In fact his approach has always been one having a thorough understanding of the concepts rather than merely having an exam — centric approach. Personally he possesses a zealous attitude towards learning and is always ready to share his knowledge with *his* classmates. He has participated enthusiastically in various competitions and class seminars.

I wish him every success and assure that wherever selected he will prove himself as an asset to that institution. Finally I have no hesitation in recommending Mr. BOLLINA NAGA VENKATA SATISH for admission into your esteemed institution as an under graduate student.

Satish Bollina
