LETTER OF RECOMMENDATION

I deem it my pleasure to introduce **Mr. Boyapati Sai Sumanth**, whom I have known for the past four years as an undergraduate student of Computer Science and Engineering in the college. I taught him courses in **Computer Science and Engineering** and find him to be very sincere and hardworking with a pleasing behavior.

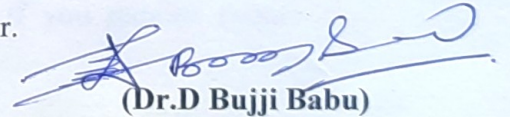

He is a student of high quality and enthusiasm. The most important thing I found in him is the quest to learn about new developments. His fundamentals regarding the subject are very strong and he constantly works to increase his knowledge in the field of interest. He distinguished himself as a keen student with strong analytical reasoning to supplement his inquisitiveness.

On the co-curricular front, in my position as the executive committee member for organizing the activities, I found him to be remarkable. He has been phenomenal in the conduction and participation of various seminars and debates relating to new technologies and standards. He is also a team player who comfortably fits into group activities with him affable personality, proper attitude and leadership qualities. His pleasant manners, optimistic approach and cheerful attitude make him a developed individual.

Due to his consistent performance, I rate him one of the best students of his academic class. I can confidently state that **Mr. Boyapati Sai Sumanth**, possesses the required motivation and intellectual ability that builds the strong foundation needed for a research oriented graduate study program. I strongly recommend him to master's program at your university. I am confident that he would prove his self worthy at your institution.

Feel free to contact me if you require further information.

I wish him every success in his future academic endeavor.

(Dr.D Bujji Babu)

LETTER OF RECOMMENDATION

I take immense pride in introducing my student **Mr. Boyapati Sai Sumanth**, He has pursued his engineering course under my supervision and hence I consider myself to be pivotally placed to judge his aptitude and caliber. I have taught him the subjects like Object Oriented Programming Through Java Though many students ask me to make this request on their behalf, I only recommend students whom I feel are well-suited for the program of their choice. **Mr. Boyapati Sai Sumanth** is one of those students and therefore, I highly recommend that he be given the opportunity to attend your university.

Mr. Boyapati Sai Sumanth, his professors say, is not satisfied with what he knows and wants to quench his insatiable thirst for knowledge. Our records show that he is very regular and prompt in his work. Taking his academic record, his curricular activities such as paper presentations, participation in technical workshops and his extra curricular activities in to consideration.

Mr. Boyapati Sai Sumanth is one of the few students I have taught having a well-defined goal and the resolve to achieve it. He has shown a great deal of maturity in the choice of his future research interests which is reflected by his performance within the prerequisite subjects thereof. His interest in the chosen subjects makes him an ideal candidate for the research environment being provided at your institute. I am sure that with his commitment towards the course, he would bring out his best to reach up to the standards of your esteemed institution. Based on my above observations, I strongly recommend that his candidature for an M.S. program at your university be considered favorably.

I am pleased to offer my support to his application for admission to your graduate school with necessary financial assistance. It is my hope that you will accept his admission in to your university. Feel free to contact me if you require further information.

I wish him every success in his future academic endeavor.

(Mrs.T.Sunitha)
