Subject: Appeal for Reconsideration of Student Visa Application Refusal

Respected Sir/Madam,

I am writing this letter to appeal against the decision of rejecting my visa application for a Student Long-term visa for Poland, as per the passport notification stamped on 04 November 2024 and received on 08 November 2024. I am genuinely surprised and disappointed by this decision, particularly given the reasons cited for the refusal, which were based on a misunderstanding of my intentions.

My primary intention in applying for a student visa is to pursue higher education in Poland. I have been accepted into University of Wroclaw for Masters in Astrophysics, and I am eager to commence my studies and gain valuable knowledge and skills that will benefit my future career. My commitment to education and my professional development is the sole reason for my application, and I have no other intentions beyond my academic goals.

I am fully committed to adhering to all visa regulations and the conditions of my stay in Poland. Upon the completion of my studies, I intend to return to India to apply the knowledge and experience gained in Poland to contribute positively to my home country. My long-term plan is to build a successful career in India and to become an astrophysicist in ISRO (Indian Space Research Organisation) that is my ambition, and studying in Poland is a crucial step towards achieving this goal.

In light of this, my humble request for you to reconsider my visa application, taking into account of my genuine intention to study and return to India after completion of my education. I am ready to provide any additional documentation or information that may be required to support my appeal and clarify my intentions.

Thank you for your time and attention to this matter. I am expecting a favourable resolution and the opportunity to pursue my studies in Poland as planned. I am eagerly waiting for your response.

Yours faithfully ,

Mufeeth varyiakundil
