Letter of Recommendation

Kartikey is a very sincere, diligent, sensitive and mature student, I have known and closely mentored him from day 1, of joining the Bachelor of Design course in 2021. His batch was the very first one at the University School of Design and Innovation, and was given a good multidisciplinary exposure in - UI/UX, 3D prototyping, design softwares, exposure to traditional heritage skills and adoption of it in design projects, understanding of design research methods. He has also written a research paper which is yet to be published. Being the student of the first batch, Kartikey has undertaken several said and unsaid responsibilities and worked with us to establish the Design school which today has grown in leaps and bounds. I have taken several courses for him like Design Project, Design Research Techniques, Ethics, Intellectual Property Rights, Arts and Crafts in Design, and Toy Design.

Kartikey has consistently demonstrated exceptional creativity and problem-solving skills with strong passion for design. His work on projects such as the research on electric bike stations, the pen toy car design, the terracotta lamp inspired by Surya Namaskara- the Yoga mudra.

Beyond his academic achievements, Kartikey has been an active participant in various college activities. He served as the president of the University's Heritage Club- "Virasat" under my mentorship, establishing his amazing skill of teamwork and leadership qualities. His commitment towards preserving cultural heritage and traditional knowledge is praiseworthy.

I am confident that his unique blend of creative, sensitive talent, academic excellence and skills of team building along with leadership would be a valuable asset to your esteemed University.

I take pride in recommending Kartikey Sharma for your valued program

Please do not hesitate to contact me for any further information.

Sincerely,

University School of Design and Innovation

Letter of Recommendation

It gives me immense pleasure to write this Letter of Recommendation in support of Mr. Kartikey Sharma, who is applying to the Master program at your esteemed university. I have known Kartikey since 2021 and have taught him the courses Representation Techniques, Elements and Principles of Design and Visual Identity & Branding (with Packaging as special input) - in 1st, 2nd and 7th semesters during my recent and present continuing tenure at USDI, GGSIP University, East Delhi Campus.

His innate creativity and knowledge of design, esp. User Experience and User Interface Design has helped him in conjugating and comprehending the subjects at both academic as well as practical level; with respect to the core skills that would benefit the User Experience Industry sector (in particular). He has been a diligent and intuitive student; alongwith having acquired special skills in 3D Design Modeling and Rendering as well.

He is a modest student who respects his peers and professors alike. He came across as a self-motivated and sincere student which can be witnessed by his excellent academic performance throughout. I have observed him to exhibit qualities of a hard-working and confident student by successfully presenting exhibiting a poster entry for an exhibition display at Dept. of Visual Arts, IIT-BHU; titled "The Sacred and Typography" sent from USDI, GGSIPU, East Delhi Campus to IIT-BHU for the Display Exhibition put up at IIT-BHU on 28th April 2022 to celebrate the established 'World Design Day' (Global Design context).

I highly recommend that his qualities along with his accomplishments will surely enable him to stand out as the best in all his future endeavours.
