# STATEMENT OF PURPOSE

I am Ganapathi Geethika from Srikakulam, Andhra Pradesh. Growing up, I have been an avid technology enthusiast and spent most of my leisure periods exploring the great possibilities of my home computer. I am fascinated with computers, and my keen interest in the ever growing world technology motivated me to take up engineering and drew away to choose Computing-Software Development. I am eager to immerse myself in an internationally acclaimed program that will provide me with the skills and knowledge necessary to excel in software field. So I wish to pursue a Bachelor's degree in Computing-Software Development Engineering program at WSB Merito University. Studying this course will also give me a deeper understanding of computer languages, different computer programs, and more. Gaining a deeper understanding of the core fundamentals of computer programming languages will greatly help me in my career life as most of my work will be dependent on a computer.

I completed my secondary and higher secondary education from Andhra Pradesh State Board of Education in 2022 and 2024 with 96.3% and 85.9% respectively. To further enhance my knowledge, I pursued a course in computer science, which allowed me to delve into fundamental    programming concepts and acquire hands-on experience in software development. I am very outing person and love to become the best in what I do. I am extremely hardworking person and creative person who wants to challenge myself in further education in the world of computing can allow me to innovate and create while being at the heart of what I think our future will be like.

According to my research, the WSB Merito University provides a range of course modules in this bachelors degree such as Algorithms and data structures, Databases, methods for effective learning and writing project papers. With Major subjects such as Object-oriented programming, IT systems, Graphics and multimedia and also with specialist subjects like Front-End Developer work tools, SPA type websites, IoT Network design, .NET programming, teleinformatic networks. All modules are adjusted with latest development. The course will be assessed by coursework, group and individual projects, portfolios, essays, presentations o exams. The reason why I choose this university that it maintains a quality management system with high standards in software field. The lectures are highly qualified and ready to serve their best to students. The university has a vibrant campus, a wonderful community and a great environment which is very suitable and important for international students like me. Additionally, I am excited about the potential to collaborate with a diverse cohort of students from different backgrounds and cultures. Engaging in stimulating discussions and teamwork with my peers will undoubtedly broaden my perspective and foster cross-cultural understanding, which I believe is essential in a globalized world.

Moreover the university is located in Poland which ensures a safe environment and accommodation. Also offers affordable living. One of the primary reasons for choosing Poland as my study destination is the country's reputation for providing high-quality education. Polish universities are known for their rigorous academic programs, experienced faculty members, and state-of-the-art facilities. The opportunity to study in Poland, with its diverse cultural landscape and thriving economy, is an appealing prospect. Immersing myself in a new environment will not only enrich my academic experience but also help me develop a global perspective that is essential in today's interconnected world.

In conclusion, I believe that pursuing a Bachelor's degree in Computing-Software Development at WSB Merito University will provide me with the ideal platform to achieve my academic and career aspirations. After completing my studies I wish to come back to my country and live the rest of life with family. I aim to develop my career as a software engineer in a well reputed firm of my home country. I am fully committed to dedicating myself to academic excellence and active participation in the university community.
