

DAYANANDA SAGAR COLLEGE OF ENGINEERING

An Autonomous Institute affiliated to Visvesvaraya Technological University (VTU), Belagavi
Approved by AICTE and UGC, New Delhi, Accredited by NAAC with 'A' grade,
UG courses Accredited by NBA, and ISO 9001-2015 Certified Institution

LETTER OF RECOMMENDATION

To whom it may concern

As an Assistant Professor at the Dayananda Sagar College of Engineering, I am contended to endorse this letter of recommendation in favour of Mr. Ruthvik M P who wishes to pursue higher studies at your prestigious institute. I've known him as an undergraduate student for the past three years, and taught him "Traffic Engineering" and "Pavement Design", in 6th and 7th semesters respectively. I also took his practical sessions of "Concrete and Highway Materials Laboratory" in 7th semester. He had been an optimal scorer in all the subjects.

Being a Civil Engineering student, he is highly motivated, keen for knowledge and is always on the lookout to learn something innovative. His learning interests are revealed by his involvement in latest civil engineering trends. He is a hard task master and a team leader. Perseverance, sincerity and thirst for knowledge have always been the hallmark of Ruthvik's personality. As a student, he was dedicated to the assignments given to him and completed them on time.

Mr. Ruthvik has the capability to complete assigned tasks with minimum guidance that makes him intellectually independent. He has the capability to put across ideas very clearly. He is a team player and has emerged as a leader with his sincerity and stringent work. Moreover, his integrity and extraordinary work has led him to proliferate as an individual. In addition, his diligence and pragmatic analysis represent his competency towards explorations. He has also taken seminars and presentations in college. Proficiency in English coupled with his in-depth knowledge of the subject made his seminars interesting and informative. Looking at his personality in a holistic way, I would rate Ruthvik in the top 10% students of his class.

Hence, I strongly recommend him to be considered as a potential candidate for admission to the master's program in your esteemed university. I believe he can meet the high standards set by your institute. I whole heartedly recommend him and wish him the very best in all future endeavours.

Best regards,

Prof. Reshma.E.K
