Objective

To be a part of this esteemed and dynamic university, where I can pursue a challenging career that enhances my academic and professional skills, while contributing to the advancement and development of society.

Profile Summary

With 3 years of experience as a Software Developer, I specialize in creating dynamic web applications utilizing the Angular framework. My expertise encompasses JavaScript, HTML, and CSS, along with a strong command of RxJS, npm, TypeScript, SQL, and Bootstrap 5. I possess a thorough understanding of the CSS box model and JSON for efficient data handling. Additionally, I have hands-on experience in lead generation and business development, complemented by an internship focused on Android development.
