

Taming Nature for Future

CENTRE FOR BIOTECHNOLOGY

Ref: MET/LOR/2-7

Date:

LETTER OF RECOMMENDATION

27/02/2024

Mr. DEEPAK VARGHESE
ASSISTANT PROFESSOR & HEAD
DEPARTMENT OF BIOTECHNOLOGY
METS SCHOOL OF ENGINEERING
AFFILIATED TO KERALA TECHNOLOGICAL UNIVERSITY
MALA, THRISSUR- 680732

It is my pleasure to introduce **Ms. Maria Jose** of my department, who is my student for four years (2020-2024). I had ample opportunity to evaluate Maria in these years as an instructor. She always managed to maintain a good academic record and has been consistently among the top 10% of the students in her class. During my interactions with her, I found her sincere, obedient, intelligent and hardworking. She is very enthusiastic with zeal of foresight. She has always approached me with queries regarding research ideas and her mini project was highly commendable. I have found her to be diligent and her problem solving skills are laudable.

Maria's communication skills are excellent with pleasant manners and also a high degree of maturity in her perceptions. She definitely has excellent coordination skills too. During these years of undergraduate study, she has groomed herself into a bright and outstanding student. Keeping in view of her performance, inquisitiveness and ardor towards the field of Biotechnology, I highly recommend her to the master's program in your university. I wish her all the very best for the future endeavors.
