

Statement of Purpose

Applicant: Harikrishnan Nair T R

Program: Bachelor's in Social Work and crisis intervention

University: Klaipeda University

I am writing to express my enthusiastic desire to pursue a Bachelor's degree in Social Work at Klaipeda University in Lithuania. My decision to choose social work as my career path is rooted in my unwavering passion for helping individuals, families, and communities in need, as well as my belief in the transformative impact of social work. Lithuania's rich cultural diversity, combined with Klaipeda University's esteemed academic programs, makes it the perfect environment for me to develop the skills necessary to address complex social challenges.

From a young age, I have been deeply affected by the struggles faced by marginalized and vulnerable populations in my community. Volunteering with underprivileged children, the elderly, and people with disabilities has provided me with valuable insights into their daily challenges. These experiences have solidified my commitment to social work and my desire to advocate for social justice, promote inclusion, and empower individuals to improve their quality of life.

What particularly draws me to Lithuania is the country's emphasis on human rights, equality, and social welfare. Lithuania's innovative approach to social services and community-based interventions resonates strongly with my values. I am particularly inspired by the way the country integrates modern practices with traditional support systems, and I am confident that studying at Klaipeda University will provide me with a deep understanding of the social, economic, and political factors influencing well-being on both local and global scales.

The Bachelor's program at Klaipeda University, with its strong focus on practical experience through internships, community projects, and research, will be an ideal platform for me to apply theoretical knowledge in real-world situations. I am eager to learn from experienced faculty members and collaborate with students from diverse backgrounds, which I believe will enrich my academic journey and broaden my understanding of social work as a global profession.

My long-term goal is to contribute to the development of effective social policies and programs that address pressing issues such as poverty, mental health, child welfare, and the integration of marginalized communities. I believe that the education I receive at Klaipeda University will equip me with the skills and knowledge necessary to achieve these aspirations and become a compassionate and competent social worker.

Thank you for considering my application. I am eager for the opportunity to study at Klaipeda University and to contribute to the social work profession on both local and international levels.

Sincerely,

Harikrishnan Nair TR
