

Recommendation letter

Dear Members of the Admissions Committee,

I am Suman Kumar Adhikary, a postdoctoral researcher at the University of Oulu, writing to highly recommend Rahul Kumar for admission to your esteemed Master's program in Data Science or related subject areas. I have known Rahul since 2016, during the time I was pursuing my Master of Science and PhD in Civil Engineering at Kaunas University of Technology, where I studied from 2016 to 2022. Rahul completed his undergraduate studies in Mechanical Engineering and Design at the same university from 2015 to 2019.

During my master's and PhD studies, I had the privilege of closely collaborating with Rahul on various academic and research projects. Although Rahul was studying Mechanical Engineering, he proved his strong skills and profound understanding of mathematical modelling and data management. His ability to apply these skills effectively in diverse scenarios was impressive, reflecting his adaptability and depth of knowledge. His approach to complex problems with clear and innovative solutions sets him apart as a candidate with great potential for advanced studies.

Rahul has expressed a strong desire to pursue a Master's degree and subsequently a PhD, with a keen interest in research. His dedication to learning and exploring new areas of study is exemplary. In our collaborative work on imaging technology for detecting the structural and microstructural performance of concrete, Rahul's enthusiasm and intellectual curiosity were instrumental in the progress we made.

I have no doubt that Rahul will excel in your program. His strong analytical skills, work experience in data science, and unwavering commitment to research make him an outstanding candidate for your Master's program in data science or related areas. I am confident that he will make significant contributions to your academic community and beyond.

Thank you for considering Rahul Kumar's application. I am certain that he will be an asset to your institution, and I wholeheartedly recommend him for admission.

Please feel free to contact me if you require any further information.
Sincerely,

Suman Kumar Adhikary
