To whomsoever it may concern

Respected Sir/Madam,

I take immense pleasure in introducing my student Mr. HANIN RAHMAN P (USN: 4DM20ME013) he has pursued his Mechanical engineering course under my supervision and hence I consider myself to be pivotally placed to judge his aptitude and caliber.

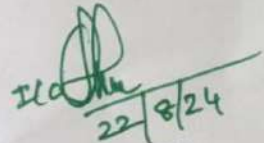

His interest in Mechanical Engineering, I feel, makes him an ideal student for higher education in this specialization. He has been integral part of our institute. He worked very closely with faculty and maintained good relationship with his peers. Furthermore, he is able to work under tremendous pressure and meet deadlines for many events that were organized in the institute.

He is willing to put in extra efforts to update himself on the latest development in his field. He is also eager to shoulder additional responsibilities entrusted to him. Additionally, he also has good communication skills, high motivation and sense of maturity in presenting his ideas which he proved through technical seminars presented during his course work.

He was also involved in extra-curricular activities during his graduate studies in our Institute. He represented the college in various inter-collegiate festivals.

I am extremely happy to recommend Mr. HANIN RAHMAN P for Master of Science at your University. I am confident that he will do extremely well in his chosen field of education. I wish Mr. HANIN RAHMAN P all the very best in his Academic pursuit and hope that he will get a chance to study MS at your University.

Please do not hesitate to contact me if you need any more information.
