

VIT[®]

Vellore Institute of Technology

(Deemed to be University under section 3 of UGC Act, 1956)

To whomsoever it may concern,

I am Professor Ramanujam R. - Department of Mechanical Engineering - VIT Vellore. I would like to recommend my student Mr. Ryan Susai a place on the Master's Degree in Automobile Engineering Course for his higher studies in Germany

Ryan has been an exceptional student throughout his college term, and among his notable quality, one that stands out is his excellent communication skills. He possesses the unique ability to convey complex ideas with clarity and precision. This skill sets him apart from his peers and makes him a strong communicator, which is a key attribute in any academic or professional setting. His academic strength is largely defined by his prowess in communication.

He has excellent command with his technical knowledge, and has aptly applied the same, with his avid enthusiasm and participation in TEAM ALBATROSS, an SAE affiliated Aero Design Team based in Vellore Institute of Technology, Vellore, as a CAD engineer. He has proven his worth of being a CAD engineer by achieving certificates in the SolidWorks CSWA, CSWP, CSWPA, issued by the official SolidWorks Corp.

In addition to being an excellent student, Ryan shows a major passion for innovations related to Automobiles and Aeronautics, having done an Internship at ABU SAMI Mechanical EST, Specializing in construction vehicle engine manufacturing and maintenance, Based in Dubai, United Arab Emirates, under the R&D wing. His strive for Technical Know-Hows and Work Experience does not stop there. Currently working as an Intern at Disha Auto Components Pvt. Ltd, Under the R&D wing, has set his foot into Industrial Automation and the concept of Industry 4.0, a generous opportunity for him to gain valuable Experience, and be introduced to the functioning of the future.

Apart from Core Mechanical interests, Ryan has a keen interest in Managerial Subjects like Industrial Engineering and Management, and Facilities Processes and Planning, being exposed to the Past, Present and Future of the Industrial world, and the associated managerial technicalities to expect and know for the Industry. Setting aside the academic interests and achievements, Ryan has the desire to Grow More, in many disciplines of interest. His Adaptability and Earnest passion to Learn more, led him to venture into Video and Photo rendering and animation, as well as dab into the software world, holding a certificate in elementary JAVA.

Ryan is a Social, Amiable, and Vibrant student, open to communication and constructive criticism, has a positive approach to things, and takes back valuable lessons from his failures and mistakes, and works towards turning the failures into successful ventures. A good team player, Ryan has displayed the qualities during his tenure in the Team and in his Internships.

I am proud to have mentored him and would like to recommend him for a place for the Master's Degree in Automobile Engineering course, which he wishes to pursue in Germany.

Thanking you.

Sincerely,

 09.02.2024
