

Additional Information Request Form

Many thanks for your interest in studying at the University of West London. Further to your application, please can we ask that you answer questions below

Candidate Name	Mohammed Safwan E.M.
Course Title	International Business Management BA (Hons)
Requested Start Date	
What course have you applied for?	International Business Management BA (Hons)
Why did you choose this course?	I have gained a lot of knowledge from seeing one of my relatives' enterprises, but I have also become aware of the shortcomings of my present skill set. Throughout my stay here, I've participated in a number of conversations with my close family members that called for a more thorough comprehension of management and company strategy than just the statistics. All of these encounters helped me realize that in order to progress in my work, I would need to get a more thorough comprehension of management concepts. My interest in studying international business management was piqued by another incident. During the conversation with all of the close relatives, I also saw directly how important market research, strategic planning, and clear communication are when making such a big business choice. I wanted to add more to these conversations, but I felt constrained by what I already knew. These experiences made it evident that I wanted to increase my area of knowledge in order to advance into a managerial position and influence company choices more. I will be better equipped to comprehend all facets of business operations, develop my strategic thinking, and get ready for leadership responsibilities in the future with an international business management degree.
Please explain how the course content and modules are relevant to your experience and future career goals	In addition to improving my strategic thinking, this course will provide me with the skills and information I need to comprehend every facet of business operations and get ready for leadership roles in the future.
How will your previous qualifications and /or work experience help you study this course?	Since there is more to learn in business than at my current diploma level, my career ladder would become static and my options for advancement would remain restricted. I've realized that in order to further my work, a global perspective is essential. I chose to schedule my additional schooling in the UK for that reason.
What advantages/benefits will studying in the UK give you in your post study plans:	The UK's education system offers immense academic benefits, including a global reputation for high-quality universities, flexible course selection, and a multicultural student environment. Its unique structure allows for practical learning, research opportunities, and real-world applications.
