

STATEMENT OF PURPOSE

YASHITA MATHPAL

The financial and economic landscape is undergoing a profound transformation, driven by the rapid advancements in digital technologies and the growing emphasis on data-driven decision-making. As someone who has been captivated by these dynamic fields from a young age, I am eager to contribute to this evolving landscape. **Pursuing an MSc in Economics and Finance at Rhine-Waal University of Applied Sciences represents the ideal opportunity for me to hone my skills, deepen my understanding, and prepare myself to make a meaningful impact in the global financial industry.**

From a young age, I have been captivated by the fundamental principles of finance and economics. **My fascination with Lego building became an innovative way to explore these concepts firsthand. I would construct structures that could withstand varying degrees of "risk," such as shaking the table or adding weight, demonstrating how different investments handle market volatility.** Additionally, I utilized Lego pieces to create a marketplace scenario, where fluctuations in supply and demand directly impacted prices. By manipulating the available pieces (supply) and the number of pieces desired (demand), I could witness the dynamic nature of pricing in real-time. **These early experiments with Legos ignited a lifelong passion for understanding market dynamics and risk management. Since the age of 16, I have been an active investor in the stock market, always eager to comprehend market fluctuations and analyze trends to learn more about profit-making. This hands-on experience has provided me with practical insights into market behavior and investment strategies, further solidifying my dedication to the field of finance.** Undoubtedly, my journey with Legos and the stock market has shaped my deep-rooted interest in finance and economics. I am confident that this unique blend of early experimentation and practical application has equipped me with the necessary skills and knowledge to excel in this dynamic field. I am eager to leverage my expertise and passion to contribute to the financial industry and make a meaningful impact.

Boasting an impressive academic pedigree, I have successfully completed my Bachelor's degree in Economics and Mathematics at the esteemed Daulat Ram College, University of Delhi. This institution has earned the prestigious NAAC accreditation and holds a commendable NIRF ranking of 28 within the nation. Graduating with a Grand CGPA of 8.212, I was awarded the First Division, a testament to my unwavering dedication and exceptional performance. My rigorous coursework encompassed advanced modules in macroeconomics, microeconomics, calculus, algebra, research methodology, analysis, statistics, modern business organization, business management, and the statistical software R. These comprehensive studies have equipped me with the mathematical and theoretical expertise necessary to tackle complex financial challenges. **I have particularly excelled in the critical areas of differential calculus,**

integral calculus, and algebra, which are essential for conducting advanced financial analyses. With this robust academic foundation.

During my Data Analyst internship, I had the opportunity to tackle numerous projects, including a pivotal Bank Loan Case study. This project entailed a comprehensive analysis of a dataset related to clients' payment behavior, with the objective of pinpointing the factors that distinguish clients with payment difficulties. Through meticulous univariate, segmented univariate, and bivariate analysis, I identified outliers and uncovered correlations between variables. The resulting visualizations provided actionable insights, empowering enhanced risk assessment and credit-granting processes. This experience not only deepened my passion for finance but also honed my analytical prowess.

Subsequent to completing my bachelor's degree, I joined Wipro as a Financial Analyst. In this role, I have excelled at developing detailed financial models and forecasts, analyzing financial data to uncover trends, evaluating investment opportunities, and supporting long-term financial planning. **Additionally, I have demonstrated my ability to monitor key performance indicators, manage costs, ensure regulatory compliance, and effectively communicate financial insights to stakeholders. These diverse responsibilities have further refined my analytical, technical, and strategic capabilities, making me an ideal candidate for the MSc in Economics and Finance program at Rhine-Waal University of Applied Sciences.**

The MSc in Economics and Finance at Rhine-Waal University of Applied Sciences is particularly compelling to me due to its multidisciplinary approach, seamlessly integrating the domains of economics, finance, law, and social issues. **The program's emphasis on empirical market analysis, game theory, and behavioral economics aligns perfectly with my academic background and career aspirations.** I am especially excited about the opportunity to explore the ethical dimensions of economic behavior, as I firmly believe that value-oriented practices are crucial in today's increasingly competitive and interconnected global markets.

The Rhine-Waal University stands out as an exceptional institution that offers an unparalleled opportunity for personal and academic growth. Its steadfast commitment to fostering international perspectives and its focus on practical applications make it the ideal environment for me to thrive. **The university's cutting-edge methods and models, coupled with its emphasis on game theory and behavioral economics, will equip me with a sophisticated research methodology – a crucial asset in my long-term goal of becoming a leading financial analyst specializing in risk management and investment strategies.**

What truly sets Rhine-Waal University apart, however, is its vibrant academic community and its holistic approach to education. The program's integration of advanced finance and economics with broader social and ethical considerations resonates deeply with my own values. I am eager to immerse myself in this dynamic learning environment, where I can engage with like-minded peers and expert faculty, refine my skills, and expand my intellectual horizons. This

unique blend of academic rigor and holistic development will undoubtedly propel me towards my aspirations, empowering me to become a trailblazer in the financial industry.

Alongside my academic and professional pursuits, I am a passionate reader, music enthusiast, and sports aficionado. These diverse interests have instilled in me the invaluable qualities of balance, resilience, and a thirst for continuous learning – attributes that I firmly believe are essential for both personal growth and financial success. Furthermore, my deep-seated desire to explore the world and immerse myself in different cultures has fueled my ambition to study in Germany, a nation renowned for its excellence in finance and economics, as well as its rich cultural tapestry. **Germany's exceptional standing in finance and economics research makes it the ideal choice for advancing my studies in Quantitative Finance. The country's robust financial sector, anchored by major hubs like Frankfurt, offers unparalleled opportunities for practical learning and career growth. Germany's unwavering commitment to innovation and technology aligns seamlessly with my passion for data-driven financial analysis and quantitative methods. Moreover, the emphasis on rigorous academic training and research at institutions like Rhine-Waal University guarantees that I will receive a world-class education.** The country's cultural diversity, rich history, and welcoming international student community will not only enrich my academic journey but also contribute significantly to my personal development. By studying in Germany, I will immerse myself in a vibrant and dynamic environment, equipping me to become a leading financial analyst specializing in risk management and investment strategies.

Convincingly, I am confident that the MSc in Economics and Finance program at Rhine-Waal University of Applied Sciences will equip me with the advanced knowledge and skills necessary to excel in my chosen career path. I am eager to bring my unwavering passion for finance, strong analytical capabilities, and steadfast commitment to ethical practices to this esteemed program. Moreover, I look forward to actively contributing to the academic community at Rhine-Waal University. I am confident that my diverse background, coupled with my demonstrated potential, make me an exceptional candidate for this program. I humbly request your consideration of my application.
