Admissions Committee

IBS (Hungary)

Department: MSc IT for Business Data Analytics

Budapest, Záhony u. 7, 1031 Hungary

Dear Members of the Admissions Committee,

With great pleasure, I write to recommend **Ajay Kumar Das** for admission to the Master's program in IT for Business Data Analytics at **IBS Hungary**. I have had the privilege of working with Ajay during their time as a student at Maharani Kalyani College, where they demonstrated a remarkable commitment to academic excellence and professional development.

As a professor, I have observed Ajay closely over the 3rd year of graduation. During this time, he exhibited outstanding analytical skills, a strong work ethic, and an insatiable curiosity for learning, particularly in the field of Research.

Ajay consistently impressed me with their ability to conduct research, solving complex problems, managing projects. For instance, in zoology/Cellular Biology, he demonstrated leadership, critical thinking, creativity, and technical skills that significantly contributed to the success of the task. Their ability to think critically and apply theoretical knowledge to practical situations is particularly noteworthy.

Moreover, Ajay is a collaborative individual who excels in both individual and team settings. In a group project, lab, or research team, they played a pivotal role in which highlighted their excellent communication and teamwork abilities.

I have no doubt that Ajay will bring the same level of dedication, passion, and intellect to the Master of Science program in IT at IBS Hungary. I believe that their academic background, strong motivation, and research potential make them an ideal candidate for your program.

I wholeheartedly recommend Ajay Kumar Das for admission to your MSc program and am confident that he will make significant contributions to your academic community.

Please feel free to contact me if you require any further information.

Sincerely,

Dr. Md. Rahmatullah
